YOUR OBLIGATIONS:

Any advice provided as a result of this needs analysis can only be as good as the information received from you, so I ask that you provide me with the information I request. Without relevant and correct information about your personal and financial situation I run the risk of giving advice that is not appropriate to your needs.

PROCESS:

At MFAS, we follow the internationally recognised six-step process for providing professional financial advice as outlined below. This allows us to understand your unique requirements and come up with the best plan of attack to help you get where you want to go.

PARTNERSHIP APPROACH:

Our approach is one of mutual respect. **We are in this together.**

We exist to be your co-pilot (rather than telling you what to do) whilst navigating your financial future. We try to be a 'sounding board' to assist in evaluating the decisions **you** make. This doesn't mean that the skies will always be clear with no turbulence. However, you will not be alone.

INDEPENDENT RESEARCH:

Our obligations are to put our clients first.

One of the components we use to ensure that we meet that obligation is to subscribe to independent life and health insurance product analysis and research.

We have been utilizing research from Strategy Financial Services Ltd since February 1995. Strategy is the oldest of such research providers having started in September 1994 and is neither owned by nor has any obligation to any insurance company.

In addition to premium comparison tools, Strategy provides regularly updated quality ratings of comparable products, detailed policy analyses, and if required, benefit analyses that compare the impact of wordings of Income Protection products.

For KiwiSaver research, we use in-house qualitative analysis plus data and research from various fund managers and quantitative Morningstar research.

For lump sum investment analysis, we source quantitative research from various fund managers and do our own in-house qualitative analysis.

By utilising the approaches outlined above we feel we can provide quality advice for your financial future.
